Compliance Commentary

(i) Waypoint Procurement Generally

In keeping with the spirit and intent of Sections 4 and 5 of BPS, Waypoint reports that it invoked the exemptions, exceptions and non-application of Part 5 of AIT for the following classes of procurement which represent, given the nature of what is being procured, standard practice for Waypoint:

- retention of consulting physicians, psychiatrists, dentists, physiotherapists, occupational therapists, auditors, architects, engineers, lawyers and accountants;
- joint hospital initiatives/agreements (e.g. Georgian Bay General Hospital collaboration respecting Booth Centennial for laundry, Centre for Clinical Ethics);
- group buying activities through organizations such as HealthPro and St. Joseph's Group Purchasing Organization. Attestations are acquired annually from these two purchasing organizations; both have a statutory obligation to follow these requirements and at this point Waypoint does not have any knowledge of non-compliance with said requirements.
