

## Quick Tips: Questionnaires

The Questionnaire functionality allows portal users to fill out various pieces of information prior to or after a visit.

These Questionnaires send real time notifications to the portal user and are tailored to specific frequencies based on the service being provided. Users should follow the instructions and complete Questionnaires in the timeframe recommended by the clinical team.

Once the Questionnaire is submitted by a portal user, all of the information can be consumed by the clinician into your Electronic Health Record.

Questionnaires are found in the Health Record tab of the Portal or by accessing your upcoming appointments.

The screenshot shows the My Health My Way portal interface. At the top, there is a navigation bar with the logo and "Home | Log Off" link. Below the logo, the "MH Portal Test's Health Record" tab is highlighted with a red box. The main content area displays a list of health record items, including Allergies, Medications, and Current Conditions. On the right side, there is a sidebar menu with various options: Visit History, Results, Medications, Allergies & Conditions, Reports, Documents, Health Maintenance, Questionnaires (highlighted with a red box), Print, and Medical History. The Questionnaires link has a red notification dot next to it.

## Quick Tips: Questionnaires

Questionnaires can be clicked on to start

### Waypoint Test's Questionnaires

Completing questionnaires may be a part of the care you receive. Ask your care team if you should be receiving questionnaires. If you are receiving questionnaires, ask your care team how they support the care you receive and how they are used. The questionnaires are not intended to be a diagnosis. If you are concerned about your results in any way, please speak with a member of your care team. You can skip any questions that you are unsure of and discuss with your care team. [Learn More](#)
